

- Provide your PPT in PDF format for the presentation. (for higher quality and assuring graphics work).
- Maximum no. of slides should be 10-12, or 1 per minute. You will be **deducted** for exceeding this time length! So put the time into figuring out the key points you want to make and practice making those points succinctly.
- You should have at least one slide for each layer of map, and also one slide for each key segment of your project, including:
  - 3 key findings of challenges, issues, or concerns
  - 3 ideas from other communities on how to address these
  - 3 key community recommendations
- Verbiage on slides should be ***very sparse!*** Plan to say *far more* than what is simply written on the slide! Whatever you do – do NOT just read the bullets on the slide.
